Dear Ken:

A very big thank you to APCO Electric. Your quick response to our call for help was literally life-saving!

Katherine, one of the low income seniors that Rebuilding Together Metro Denver serves, was in desperate need of help. This elderly woman was actually getting shocked every time she used her dryer. Upon inspection it was discovered that the wiring in the entire house needed attention. With old and worn-out wiring, there was a growing fire-risk and threat to Katherine's well-being in her home.

Thank you for all of the work you did for her. Following the work APCO Electric performed, Katherine wrote a letter of appreciation and we wanted to take a moment to share a part of her letter with you.

*"Ken from APCO saved my life. Ken went far past just a safe, basic need. The man is the most honorable human being I have ever met. His time, labor, materials were a costly investment on his part. Ken sent the very best person, Tim, to also work on my house. No one can compare to these men or to APCO Electric."*

Rebuilding Together is still amazed that APCO Electric provided THOUSANDS of dollars in labor and materials for our homeowner—all at no charge to the homeowner or to our nonprofit organization, including the installation of a new electrical box and subpanels, a 220 volt circuit for the dryer, a new outlet for the washer and several new outlets in Katherine's home.

Thank you for answering our call for help!

Thanks seem insignificant in comparison to what you've done to create a safe home for Katherine and her family. Rebuilding Together is incredibly grateful for your support and for your professional and kind treatment of our homeowner client.

Warmly,

A handwritten signature in black ink that reads "Mary Eisenstein".
